

## Wireless Network: MSMC-Green

**MSMC-Green** allows users to access the internet using their School (MSSM) & Hospital (MSNYUHEALTH) network credentials. There is no time limit to this network and no splash screen before you login. The network is also encrypted and more secure.

**This is the preferred wireless network!**

(See instructions on how to connect below)

**NOTE:** This wireless network is **not** a replacement for the Internet\_LAN.  
Access by way of Internet\_LAN remains unchanged.

### How to connect to our Wireless Network

**(Note: To access the wireless network you must choose the wireless network "MSMC-Green".) The following is the procedure for connecting to the wireless network and should only be done before successfully logged into your email account when on Mount Sinai campus.**

1. On your device, find the wireless connection icon. It might look like one of these:

Mac Wi-Fi Icon

Windows Wi-Fi Icon

2. Find the wireless network MSMC-Green

3. Click **Connect**

**Note:**

- if on an **Android** device and asked to **Identify**, enter your full email address. If it does not work enter your network userID.
- if asked to select enter a domain: **mountsinai.org**
- If asked to select a CA Certificate, select **Do not Validate**

4. You will be prompted to login using your own username and password.

a. Students, Faculty, and Staff:

- For School Users:  
mssmcampus\username  
Password: School network password

**Example: mssmcampus\janedoe01 or msnyuhealth\janedoe01**

- For Hospital Users:  
msnyuhealth\username  
Password: Hospital network password
